TO WHOM IT MAY CONCERN

This is to certify that **Mr. Habib Birhanu** was employed at Gizef Foreign Employment Agency as an **IT Officer** from **August 5, 2023 to June 11, 2024**.

During his tenure, Mr. Habib Birhanu was responsible for providing technical support and maintaining the company's IT infrastructure. His key duties included installing and configuring computer systems, troubleshooting hardware and software issues, and supporting network operations. He also assisted staff with IT-related concerns and coordinated with external service providers when necessary and coordinated with external vendors for system upgrades and technical services.

Mr. Habib Birhanu performed his duties with professionalism, dedication, and a strong sense of responsibility. He demonstrated good technical knowledge, problem-solving skills, and the ability to work effectively both independently and as part of a team.

We found him to be reliable, hardworking, and of good conduct throughout his employment. And also wish him every success in his future career endeavors.

Sincerely,

Zemenawit Kahsay

CERTIFICATE OF COMPLETION

This is to certify that

Habib Kirhanu

has successfully completed the following courses of **Cisco Certified Network Associate (CCNAv7)** training program given at Werabe University Cisco Networking Academy:

- | | |
|---|-------|
| ➤ Introduction to Networks | 70Hrs |
| ➤ Switching, Routing, and Wireless Essentials | 70Hrs |
| ➤ Enterprise Networking, Security, and Automation | 70Hrs |

Issued on July 2023 G.C

Hadra Jemal
Manager, WRU Cisco Networking Academy

Abdi Teimam (PhD)
WRU Business & Dev V/President

CCNAv7: Introduction to Networks

The student has successfully achieved student level credential for completing CCNAv7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

CCNAv7: Switching, Routing, and Wireless Essentials

The student has successfully achieved student level credential for completing CCNAv7: Switching, Routing, and Wireless Essentials course administered by the undersigned instructor. The student was able to proficiently

- Configure VLANs and inter-VLAN routing applying security best practices.
- Troubleshoot inter-VLAN routing on Layer 3 devices.
- Configure redundancy on a switched network using STP and EtherChannel.
- Troubleshoot EtherChannel on switched networks.
- Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols.
- Configure dynamic address allocation in IPv6 networks.
- Configure WLANs using a WLC and L2 security best practices.
- Configure switch security to mitigate LAN attacks.
- Configure IPv4 and IPv6 static routing on routers.

CCNAv7: Enterprise Networking, Security, and Automation

The student has successfully achieved student level credential for completing CCNAv7: Enterprise Networking, Security, and Automation course administered by the undersigned instructor. The student was able to proficiently:

- Configure single-area OSPFv2 in both point-to-point and multiaccess networks.
- Explain how to mitigate threats and enhance network security using access control lists and security best practices.
- Implement standard IPv4 ACLs to filter traffic and secure administrative access.
- Configure NAT services on the edge router to provide IPv4 address scalability.
- Explain techniques to provide address scalability and secure remote access for WANs.
- Explain how to optimize, monitor, and troubleshoot scalable network architectures.
- Explain how networking devices implement QoS.
- Implement protocols to manage the network.
- Explain how technologies such as virtualization, software defined networking, and automation affect evolving networks.

Letter of Recommendation

It is my pleasure to recommend **Habib Birhanu Ali** who was graduated in Information Systems from the department of Information Systems, Institute of Technology, Werabe University. I came to know **Habib Birhanu Ali** since 2021 while he was B.Sc. student in the department of Information Systems. By the time, I also got the chance to have a close look to him since I was Lecturer and Head of the department of Information Systems. **Habib Birhanu Ali** distinguished himself by showing an exceptional endeavor and interesting effort on his study and duty.

Overall, **Habib Birhanu Ali** is a motivated, capable and highly intelligent person. He always shows the aptitude and willingness to update his knowledge and skills that might make him a true professional. He fits in to the organizational and team tasks very well, and brings in a sense of purpose and objectivity to whatever he does. At a personal level, **Habib Birhanu Ali** is a well-disciplined, industrious person with a pleasant personality. His conduct and character have been excellent throughout my contact period. Considering his already proven talent and skills, I whole-heartedly and strongly recommend him for your vacant position. He has proven himself to have the perseverance, initiative, and intellectual creativity necessary to complete an independent study. Therefore, I sincerely believe that he will contribute a lot for your company or organization.

If I can be of any further assistance, or provide you with any further information, please do not hesitate to contact me.
